Fantastic school. I recently did the level 1 course with Mandarin Time - intensive course with 4 classes per week, 1.5 hours each. Right from registration onwards, the staff was super helpful and responsive. **My teacher Daisy has been amazing - keeping the classes interesting and interactive, giving close attention to each student.** The online resources are also really helpful to practice. If you are looking to learn Mandarin from scratch like me, I would highly recommend Mandarin Time.

My experience studying Putonghua at Mandarin Time exceeded my expectations. All the staff Lydia, Patrick and Jena are super friendly and ready to help anytime creating a welcoming atmosphere at the school. **Teacher Daisy is perhaps as good as they get in teaching.** She is patient, detailed and most importantly creates a fun and relaxing environment for studying a language. She answered my tough questions and gave me enough opportunities to practice as much as possible. I wholeheartedly recommend Mandarin Time for your Chinese language journey.

I'm taking a lesson for HSK 5 in this school since 2 months ago.

Overall the experience has been great. **Although I struggle initially, my teacher Daisy is very patient in helping me to learn.** Additionally, their website is full of very helpful online materials that aid me in getting up to speed.

Highly recommend mandarin Time. Recently completed the HSK Level 6 course with Mandarin Time. Class size is small allowing plenty of time to ask questions and interactive discussion during the class. **Our teacher Daisy is highly experienced and patient, following up with class notes.**

Lydia and Jenna are super nice and helpful
