I highly recommend Hong Kong Mandarin Time School for those who want to learn Mandarin! :)

The teachers are very professional, approachable, and friendly. The school location is very convenient as it is located in Central. The school also has a very relaxing and clean learning environment. I am very satisfied with my Mandarin classes as I have really learned a lot and I have noticed a big improvement in my Mandarin ever since I started. **I would like to thank my teacher Miss Sylvia because she is an excellent, fun, and patient teacher.** She explains the lessons very well and makes it enjoyable and interesting too. I also like the self-paced course as it is organized, well-structured, and easy to understand. It helped me understand the lessons even more and I can learn Mandarin anytime and anywhere which is very convenient and fun! I had a great overall learning experience and I highly recommend it, for me it is truly the best Mandarin School in Hong Kong! :)

“PROFESSIONAL”

Thank you for your hard work during the classes over the summer, especially the one to one classes which are more difficult from a teaching perspective. You come to each lesson with a positive attitude and always bring a happy smile to the class which is lovely to see everyday. You are able to answer my challenging questions about grammar and error correct when appropriate, and do this with a positive attitude. Your knowledge of linguistics is brought into the lesson and I feel I have learned a lot more from you over the course. Overall, I feel my confidence has improved, I have been given plenty of opportunities to practice, have been pushed to review and self study at a moderate pace (which is exactly what a needed!). Best wishes in your future career and wherever life takes you 😊 we're not yet sure of our future plan for returning to China and for how long, but should we come back for several weeks we'll be sure to make time to take classes again.
