I have been recommended Mandarin Time School by a friend, and it's been a great experience so far: the location is very convenient, and the staff is incredibly friendly and supportive. **In the last few months, my teacher Gloria has been accompanying me through HSK3, 4, and now 5, and she's been amazing: clear, dedicated, and fun!** The material is well designed too, allowing students to improve on their Chinese at their own pace.

Enjoyed the Basic (Intensive) course with my teacher Gloria. All staffs were very friendly and supportive. **Gloria was also accommodating to the student's needs and pace.** Attentive and thorough with her explanation. Convenient location and a lot of useful materials to support the learning experience.

Choosing Mandarin Time for my basic Chinese language studies was the best decision I made. The team members were amazing to handle my queries and concerns. **Also, I am grateful to have my laoshi Gloria for the patience and countless lessons she've taught me.** I will definitely go back for my Level 2!

Thank you Mandarin Time Family! See you soon!

I have been taking Putonghua classes at HK Mandarin Time for over a year now. I need to work on speaking Putonghua in a business setting where the appreciation of technical and sophisticated terms and etiquettes are essential. **My teachers Luna (previously) and Gloria help me improved significantly and I am very happy I have selected HK Mandarin Time School.**
