I recently finished the first level basic course of mandarin learning at Mandarin Times. I find the staff to be welcoming and helpful. Teacher fan was very patient and encouraging. I think she tweaked the course based on my capability and attitude and was very appreciative of my efforts.

Great school to learn mandarin. The teachers are all very welcoming and supportive, and the online platform contains lessons to easily build up vocabulary and grammar (which are practiced in the lesson). Our teacher (Fan) was fantastic, and customised lessons to help us practice the areas we were not good at, whilst being really supportive which helped us build confidence speaking. Thanks!

I took the level one course with teacher Fan and she was excellent. Very supportive and fast to answer any question outside the class time. Also the materials are very good and the flexibility of having the lesson in class or online as we please is very much appreciated to adapt to out constraints.

I started Mandarin with teacher Fan, very easy to understand and convenient for learning.
They can provided online when you can't join in class.
Everyone so kind and friendly, I enjoy and very happy to learn there.
And now I can speak Mandarin after finish level 1 only.

Thanks everyone for supporting and help to improve my skills😊.
